## PROFILE

---

I am an experienced **Front-End Developer** with over a decade of experience specializing in JavaScript/TypeScript, ReactJS, NextJS, and CSS frameworks. I began my web development career in 2012 as a freelancer on Upwork, where I completed a lot of various tasks and projects (over 100 contracts) and earned numerous satisfied clients.

From 2015 until recently, I worked at **egghead.io** and **Skill Recordings**, where I was involved in developing cutting-edge e-learning products. My role involved creating seamless user experiences using JavaScript/TypeScript, ReactJS, NextJS, TailwindCSS and shadcn/ui, libraries TanStack Query framer-motion, CMS Sanity.io, and others.

I am committed to continuous learning and stay updated with industry trends through platforms like Udemy and Coursera.

## ACTIVITIES OUTSIDE OF WORK

---

Outside of work, my interests are quite simple: road trips to beautiful places with my family, raising children, 1970s science fiction, the TV series "Columbo", good coffee, and 3D printing.
